SHUBOND

THE GLUE SOLUTION

GLUE-U.COM

Glue-U Adhesives is a Dutch company making innovative products for farriers and horses since 2006. Following our philosophy **“TOGETHER WE TAKE CARE OF YOUR HORSE”** we designed special adhesives to glue any kind of horseshoes, acid free silicones and very fast urethane pads for any purpose. All Glue-U products are Dutch engineered and manufactured both in Europe and USA: same quality, same performance.

**“SHUBOND STRIKES
THE PERFECT
BALANCE BETWEEN
HARDNESS
AND ELASTICITY.
THE MOST
VERSATILE GLUE
USED IN THE HORSE
INDUSTRY.”**

WHAT IS SHUBOND?

INTRODUCTION

Available in 150cc and 420cc black and beige. Fits in standard caulking gun using an adapter or just use the Glue-U dispenser for 150cc cartridges. 420cc only usable with special gun.

Bonds steel, aluminium and even urethane shoes. Suitable for repairing large cracks and creating a hoofwall reconstruction. Initial set time: 90-120 seconds (open time). Weight-bearing in 4-5 minutes (even in cold conditions). Temperature and humidity might have effect on the performance of this product. Heating up Shubond before use speeds up setting time significantly.

SHUBOND PRODUCT LINE

Hoofwall reconstruction | Bonds all types of shoes | Stays elastic | Weight-bearing in 4-5 minutes

FEATURES

ALL ABOUT SHUBOND

Shubond brings a new era of efficiency and versatility in fast setting acrylic glue. The most versatile glue used in the horse industry. Thanks to its great features it's mixable by hand or easy to use with Glue-U mixing tips for the perfect mixture.

Key features

High adhesion:

Shubond boasts exceptional adhesion properties, ensuring that your glueing projects stay firmly in place, even under demanding conditions.

Easy to rasp:

With Shubond, achieving the perfect finish is a breeze. Its easy-to-rasp formulation allows for effortless shaping and smoothing, resulting in perfect results every time.

Hard yet flexible:

Shubond strikes the perfect balance between hardness and elasticity. This means that while it provides strong support, it also maintains the necessary elasticity to accommodate movement and stress without cracking or breaking.

Accelerated setting time:

Need your project to set quickly? Shubond has you covered. By simply heating it to body temperature, you can accelerate the setting time, getting your job done faster and more efficiently.

FEATURES

ALL ABOUT SHUBOND

Versatility in application

Shubond's versatility extends beyond traditional gluing tasks. In the equine industry, Shubond's acrylic glue has earned a reputation as the go-to solution for a wide range of applications. From gluing on various types of shoes to repairing the most intricate hoof wall problems, Shubond proves its versatility again and again.

Available options

150cc and 420cc black and beige cartridges:

Shubond offers both 150cc and 420cc cartridges to suit different project requirements. The 150cc cartridges fit seamlessly into standard caulking guns using an adapter, or you can opt for the convenient Glue-U dispenser. For the 420cc cartridges, a special gun is required.

Applications

Bonds various materials:

Whether it's steel, aluminum, or any type of glue-on shoe, Shubond delivers reliable bonding performance across a wide range of materials.

Repairs:

From small cracks to extensive repairs, Shubond excels in addressing a multitude of issues, making it an indispensable tool for professional farriers.

WHY USE SHUBOND?

PERFORMANCE

Superior adhesion:

Shubond sets the standard for adhesion performance. Whether you're working with metal, wood, or composite materials, Shubond ensures a strong and lasting bond that withstands the test of time. Say goodbye to worries about your projects coming apart – with Shubond, reliability is guaranteed.

Exceptional versatility:

From small repairs to large-scale projects, Shubond excels in versatility. Its ability to bond a wide range of materials, including steel, aluminum, and various surfaces commonly found in the equine industry, makes it an indispensable tool for professionals. Whether you're repairing cracks, gluing on shoes, or building a new hoofwall, Shubond is up to the task.

Effortless application:

Shubond's formulation ensures ease of use, allowing for smooth application and shaping. Its quick initial set time of 4-6 minutes means you can progress rapidly with your projects, while achieving weight-bearing strength in just 7-8 minutes ensures efficiency even in challenging conditions. Plus, with the option to accelerate setting by heating to body temperature, you have control over the pace of your work.

Reliability in any environment:

Temperature and humidity fluctuations can wreak havoc on some adhesives, but not Shubond. Its strong performance remains consistent regardless of environmental conditions, giving you peace of mind and reliable results every time.

USE SHUBOND FOR: EXAMPLE APPLICATIONS

Shubond black.

Shubond beige.
